EDUCATION

Java Developer
Software University

09/2023 - Present   *Sofia, Bulgaria*

Courses
- Java Advance-Jan 2024 -Jan 2024-Certeficate ⬈
- Java Fundamentals-Sep 2023 -Certificate ⬈
- Java OOP-Feb 2024 -Certificate ⬈

Full-stack Java Script Developer
Software University - Certeficate ⬈

01/2022 - 08/2023   *Sofia, Bulgaria*

Courses
- Angular with Type Script -Jun 2023-where I am learning: TypeScript- basic syntax and concepts; architectural patterns for SPA, components, directives, templates for data visualization, models, data binding, observables, routing, extracting data from a RESTapi and DI. ⬈
- Intern program Oct2023-Jan2024 - I participated in the project Fakturiko with Angular and Express.js ⬈
- ReactJS - Feb 2023 - knowledge and practical skills for building client applications (SPA) using React with Java Script: architectura for SPA, components, views , models, data binding, working with multiple views, routing, extracting data from REST services. Certeficate ⬈
- JS Back-End -May 2023 - development of server with JavaScript on Node.js, server-client architecture; building a REST API using Express.js and MongoDB. Certeficate ⬈
- JS Applications - Feb 2023, where I learned: HTTP requests, REST Services, Templating and Routing, SPA, design patterns and their practical guidelines - Certificate ⬈
- JS Advanced -Sep 2022, where I learned: in-depth JavaScript: matrices, objects, classes, functions, function context,binding, event loop, DOM tree, events, inheritance, object composition, and prototype chaining - Certificate ⬈
- Programming Fundamentals with JavaScript -May 2022-where I learned: fundamental concepts in programming- Certificate ⬈
- HTML&CSS - Jan 2022 , where I learned: to create web pages; styling websites with CSS; typography; adaptive (responsive) web design; Certificate ⬈
- Programming Basics with JavaScript - Feb 2022 - where I learned: initial programming skills: writing programming code at an entry level - Certificate ⬈
- Software Technologies-July 2018 - basic of front-end and back-end technologies -jQuery, C#, Java, PHP - Certificate ⬈

TECHNICAL SKILLS

Programming Languages: Java Script, TypeScript, Java, HTML, CSS, basic: C#, PHP

Tools: Visual Studio Code, ItelliJ IDEA, Eclipse, Visual Sudio,

Frameworks/ Libraries: React with Java Script, Angular with Type Script, ExpressJS, PageJS, Hadlebars

Databases: MongoDB /with Mongoose- ODM/

SOFT SKILLS

Teamwork&Cooperation   Friendliness

Responsibility   Self-management

Good communication

LANGUAGES

Bulgarian
Native or Bilingual Proficiency

English -B2
Professional Working Proficiency

PERSONAL PROJECTS

Бързо, лесно и вкусно за злоядковци (07/2023 - 08/2023)
- Software technologies: Angular, Angular Material, Type Script, HTML, CSS
- GitHub ⬈

У нас и по света с деца (02/2023 - 04/2023) ⬈
- Software technologies: React, JS, HTML, CSS, React-Bootsrap, Express.js
- The project uses Express.js RESTful API as back-end and React.js as Front-End. It has been deployed on Vercel. The database is MongoDB Atlas. The pictures are uploading and are storing with help of Cloudinary.

B2114 DAT Compiler (09/2022 - 09/2022) ⬈
- It 's a website of my family friend, that I need to improve soon but it was a good exercise of HTML, JS, CSS and setup of Free SSL
